

The Honorable Alex M. Azar II
Secretary
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Secretary Azar:

We are writing on behalf of hospitals and health systems to urge you to ensure that our nation's safety-net hospitals continue to have access to the vital 340B drug pricing program.

340B enables our hospitals to reduce pharmaceutical costs for millions of patients in need and stretch our scarce resources to serve more patients and offer more comprehensive services. 340B hospitals provide 60% of uncompensated and unreimbursed care and 75% of hospital care to Americans enrolled in Medicaid.

The recent actions of a growing number of major pharmaceutical manufacturers would undermine the very reason this program exists. For example, AstraZeneca has declared it no longer will provide 340B pricing for any of its drugs that will be dispensed through the vast majority of 340B contract pharmacies. Eli Lilly has also stopped providing 340B pricing to all 340B contract pharmacies for all of its drugs. These manufacturers produce several of the costliest drugs our hospitals use to treat various forms of cancer and diabetes.

Several other manufacturers, including Merck, Sanofi, and Novartis, have sent demands to 340B hospitals and other covered entities for millions of contract pharmacy claims, threatening to cut off access to 340B discounts at contract pharmacies or take other burdensome actions if their demands are not met. Providers have no legal obligation to share this data, most of which does not relate to any 340B obligation.

These collective actions to deny access to 340B pricing are clear violations of the 340B statute that will set a dangerous precedent. The statute requires manufacturers to provide the 340B discounts to entities that meet 340B's strict eligibility requirements and does not grant them the ability to condition the discounts or otherwise create barriers to covered entities' ability to access the discounts. If the administration permits pharmaceutical companies to continue these practices, 340B hospitals will face increased difficulties serving high volumes of patients living with low incomes in our rural and urban communities. Preserving access to 340B pricing is even more critical now, as safety-net hospitals across the country are on the front lines treating COVID-19 patients.

We appreciate your continued leadership on these and other matters and urge you to use your authority to put an end to these ill-conceived policies. We look forward to working together to protect and strengthen this critical lifeline for our communities.

Sincerely,

Alabama
